TESTIMONIAL

2024 LEI PROGRAM

By Destry Uehara, Henry J. Kaiser High School

Aloha Hawai'i, Hawai'i aloha spirit encompasses benevolence to the tourists that enjoy our wonderful beaches and discover the history of our culture. The hospitality industry controls billions of dollars towards our state's economy every year and that's a lot of help the community needs to pay for the infrastructure to improve our school's education systems. Locals are already paying for the tourist's attraction by being the kind creatures they are towards tourists and sharing our warm hospitality, but you'll never find another community that is like the charismatic and fun-loving people in these islands. The backbone of housekeeping: cleaning and making sure every guest has a warm welcome in each stay for 12 minute cleanups. The management is like ligaments or muscles who are the glue to keeping up with guest complaints and hotel standards for communication. Restaurateurs are the organs for hotels pumping in and out demonstrating the local cuisine in Hawai'i for guests understanding our mixed culture that is intertwined with the history of plantations. I was aware of the basics of housekeeping, but did not know about PR and HR management. My approach towards hospitality has changed from not wanting to follow suit like my parents. I'm considering being an entrepreneur, writing as a side job or possibly working full-time at a restaurant in the future.

My experience with LEI has changed my perspective in what to apply for such as business and art majors. Although, I enjoyed the hands-on experience and in-depth conversation with our mentor about how the industry has heavily influenced the expression of aloha and lei. I look forward to the days of wondering about the hospitality industry, and at the same time traveling with my dreams of flying high to the sky or becoming the next level in development for my creativity. I learned that you don't have to start at the top because everyone begins somewhere and that journey will last a lifetime when you build your goals around what you love about life. We're the next generation of Hawai'i, and I've been pondering about my future career. The people of LEI have truly touched my soul deeply. I absolutely recommend any of my friends who are unsure of what career path they want to take. Because the process of looking for a place to belong is exhausting and when I joined LEI I really got to see the backstage of a flowing industry. While the opportunities of the program share a reflection of who I am, the people who helped me grow in this industry, the people who took the time to meet me at the Hawai'i Convention Center. I'm inspired by all the people who gathered on that day to become more involved with my home and I want to give back to the people who've helped me along the way. I'll always cherish the sweetness and fond memories that it brought when I got on that stage by crying tears of joy as I looked around and saw all the people clapping around me. I'm forever grateful of how incredible a place Hawai'i is to be called my home and for LEI to show me that love again to become a part of this, I would want to give back the Aloha and courtesy shown to me. I want to say thank you for the people who make this program possible and for changing my life, Aloha Hawai'i.
